

Panel Discussion:

OpenStreetMap and Data Imports

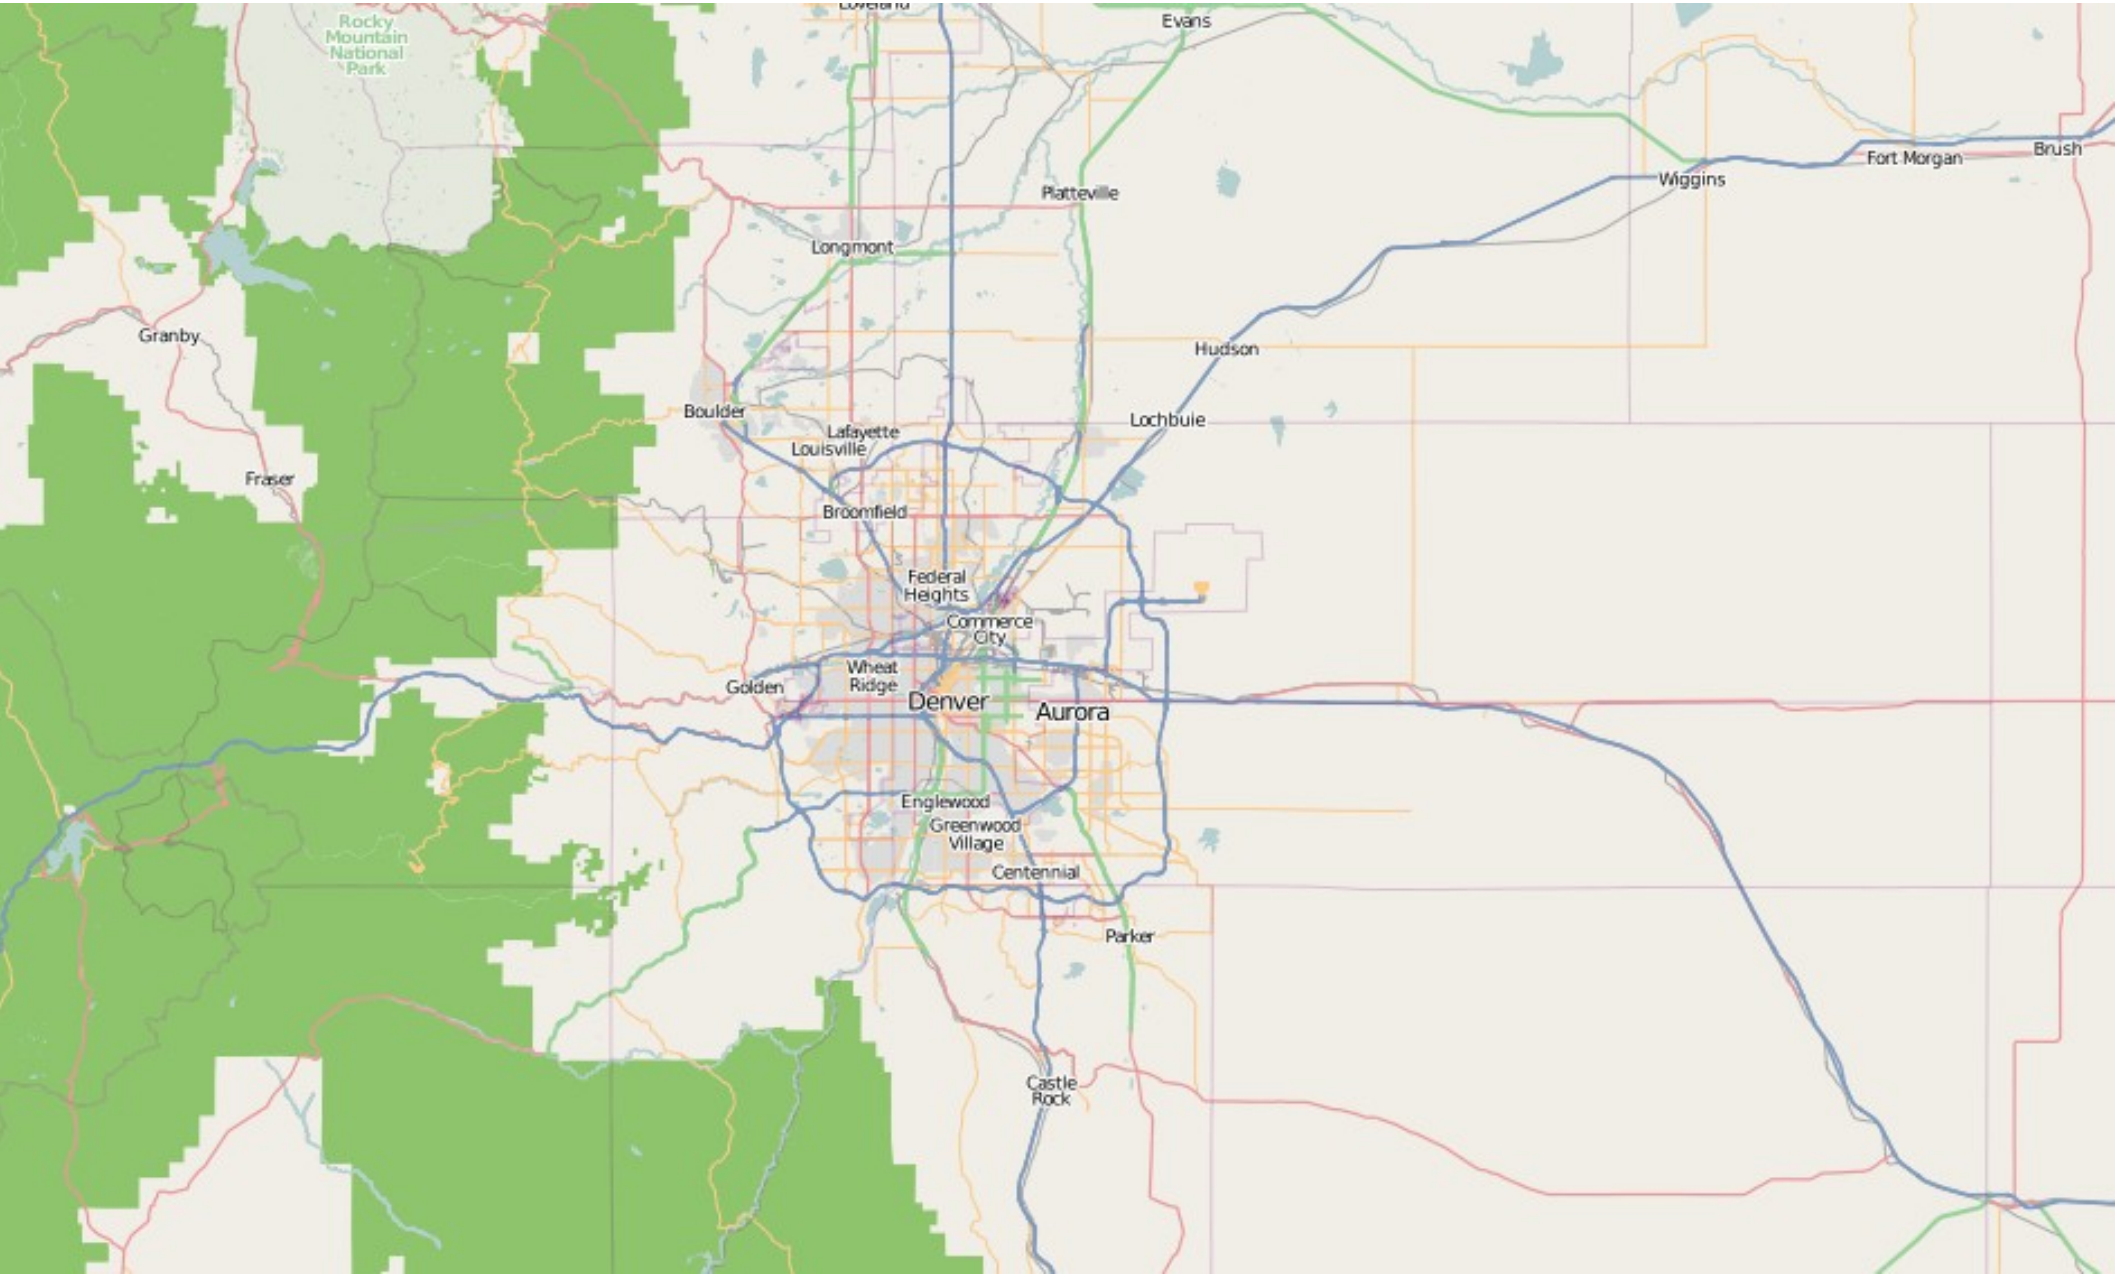

Fred's Three Points:

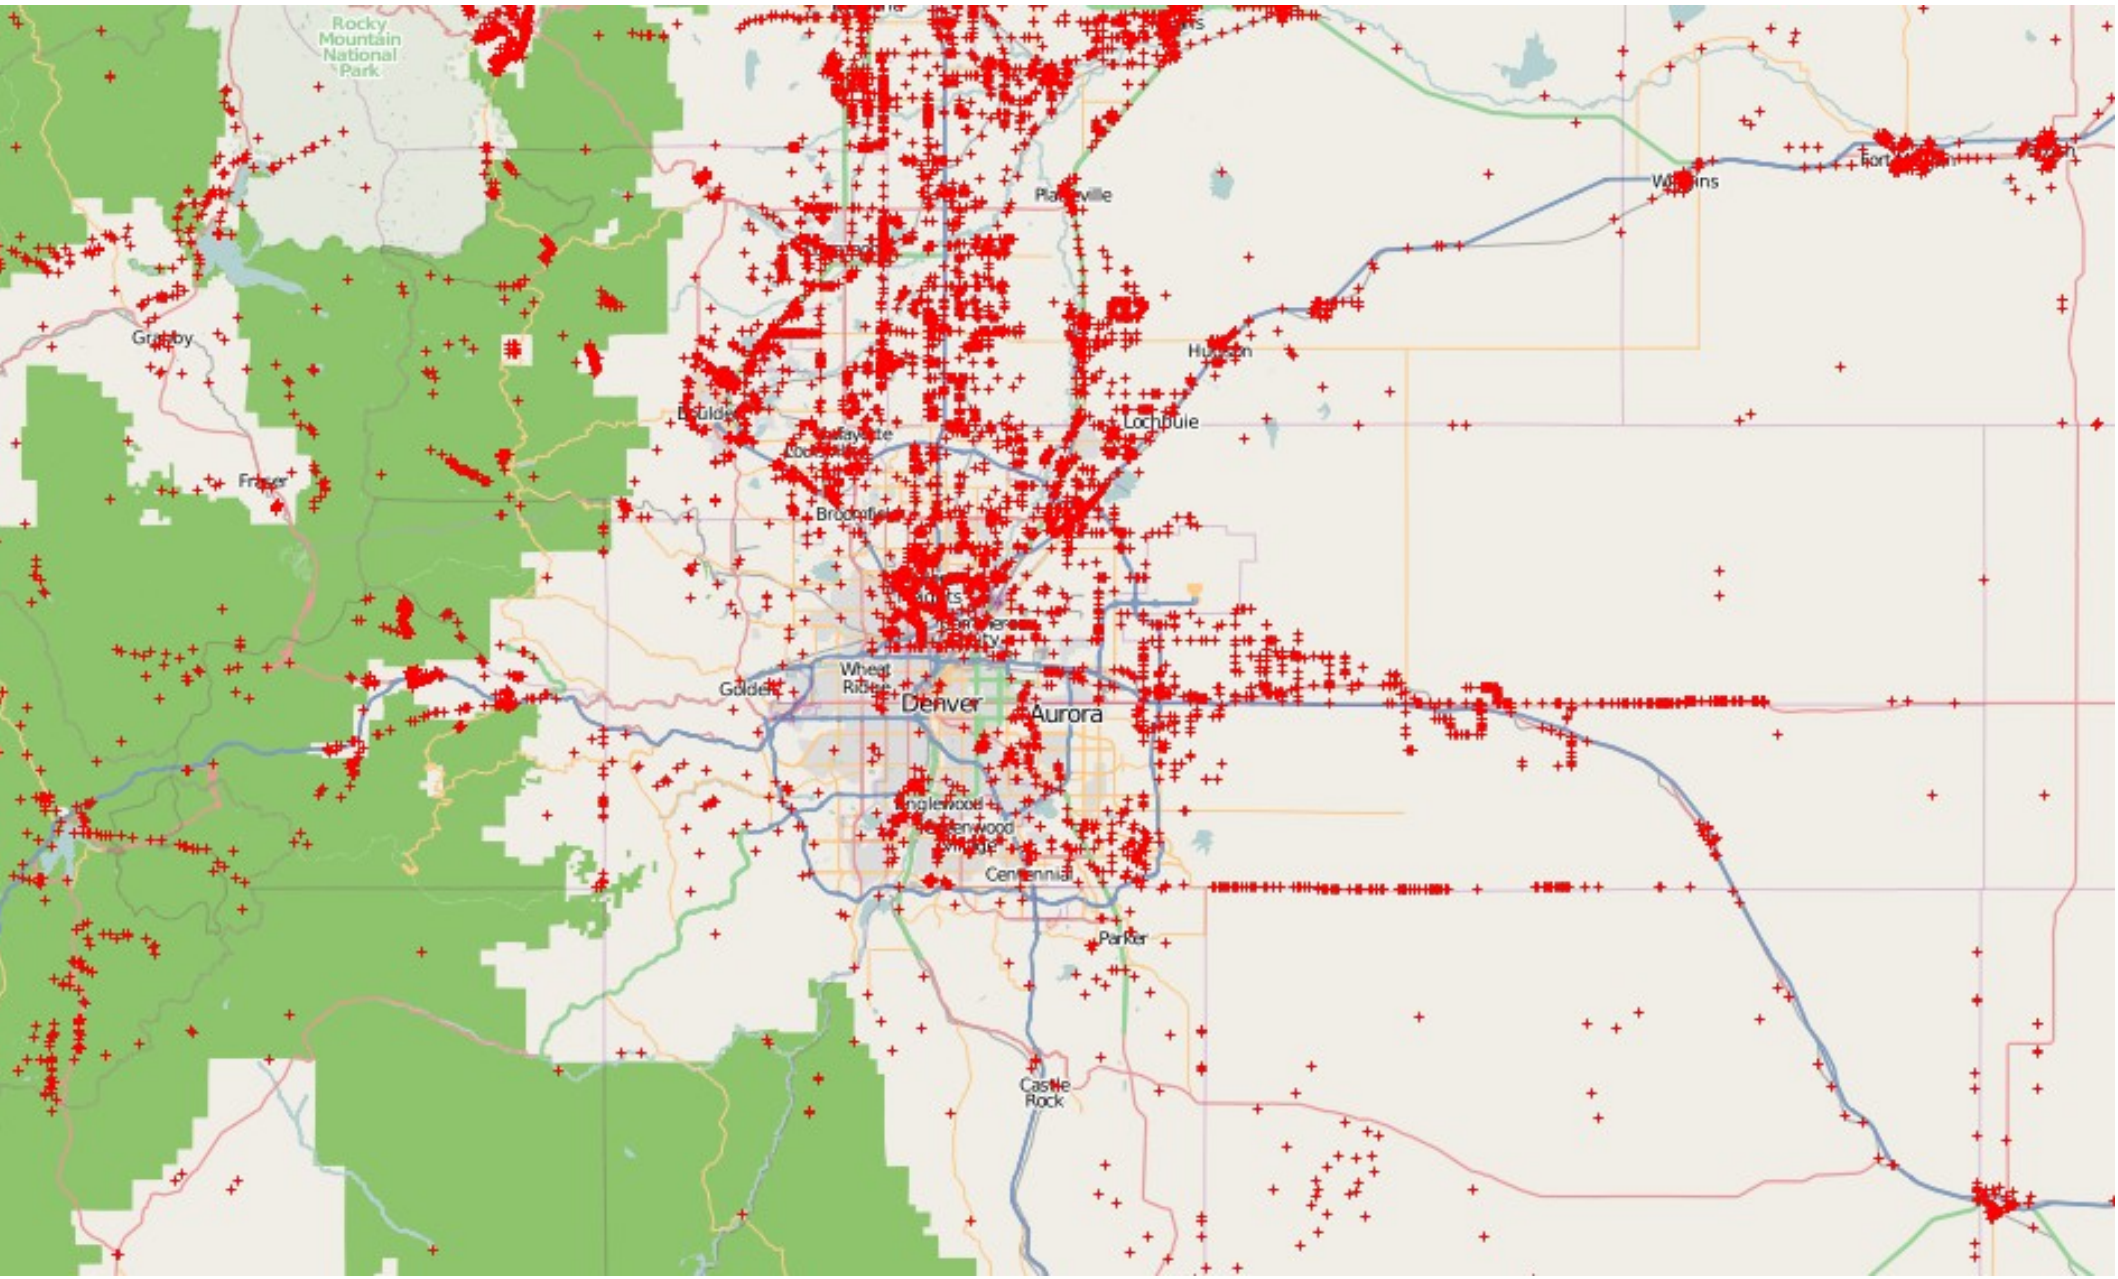

1. People doing imports are generally well-meaning.

1. People doing imports are generally well-meaning.

(Maybe sometimes a little bit presumptuous.)

2. Imports are often not thought out well, and executed badly.

OpenStreetMap is a free editable map of the whole world. It is made by people like you.
OpenStreetMap allows you to view, edit and use geographical data in a collaborative way from anywhere on Earth.
OpenStreetMap's hosting is kindly supported by the UCL VR Centre, Imperial College London and Bytemark Hosting. Other supporters of the project are listed in the wiki.
